Subject: [Staff-I] Administrative update

Dear faculty and staff,

In the summer of 2017 (following the departure of our prior CFO Laura Hazlett), I reported that Chief Information Officer Mara Hancock would be reporting to me in an interim capacity and taking on an expanded role at the college.

Jason Blackwell, Associate Vice President of Operations, and Jen Stein, Vice President of Institutional Planning, have been reporting to Mara since that time.

I am pleased to announce that Mara will continue overseeing these areas in addition to libraries and technology. Her new title, Chief Information Officer, Sr. Vice President of Operations reflects her expanded role at the college.

Please join me in congratulating Mara!

Sincerely,

Stephen Beal
