

## CCA/LIBRARIES **Craft as Social Justice**

The CCA Libraries Exhibition Program presents a digital exhibition by Maria Porge's undergraduate course, *Craft as Social Justice*. Students looked at how object-making and activism intersect in order to propose solutions and open up dialogue. They have each curated an online exhibition to present a social-justice issue through groups of objects, designing their sites to present their ideas through both image and text.

For further info, please refer to the Exhibition Information folder.
