

Quantum Cats & Other Data

May 2017 All-Staff Meeting

Koha

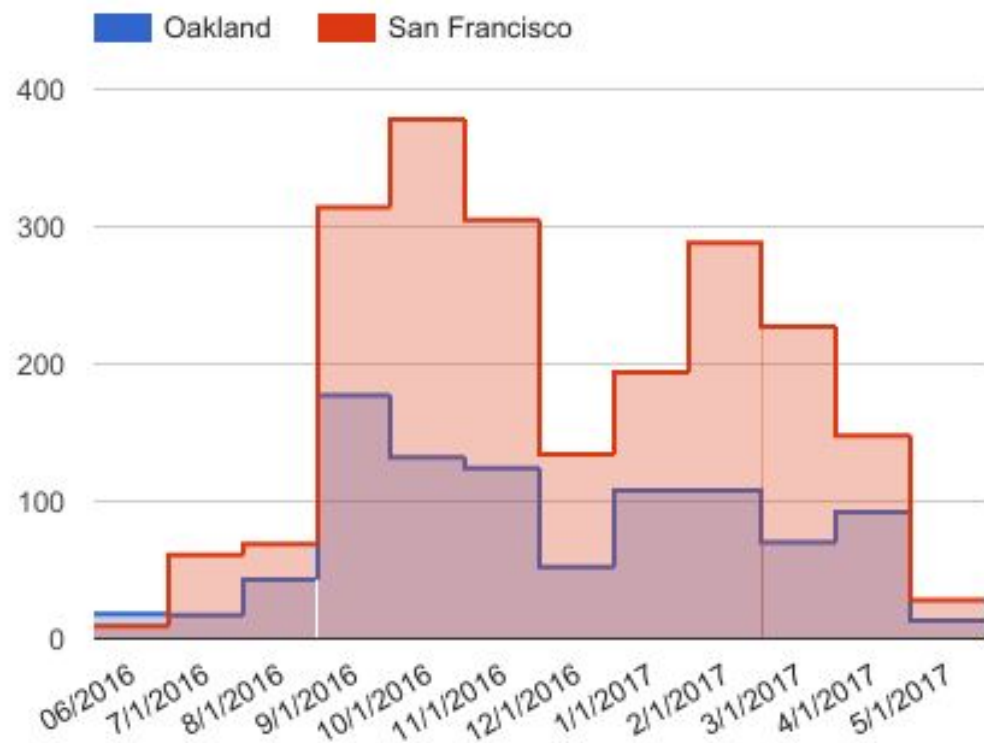

Miscellaneous Figures

I had **6 changes** pulled into the main Koha code base, altering **267 lines of code** total.

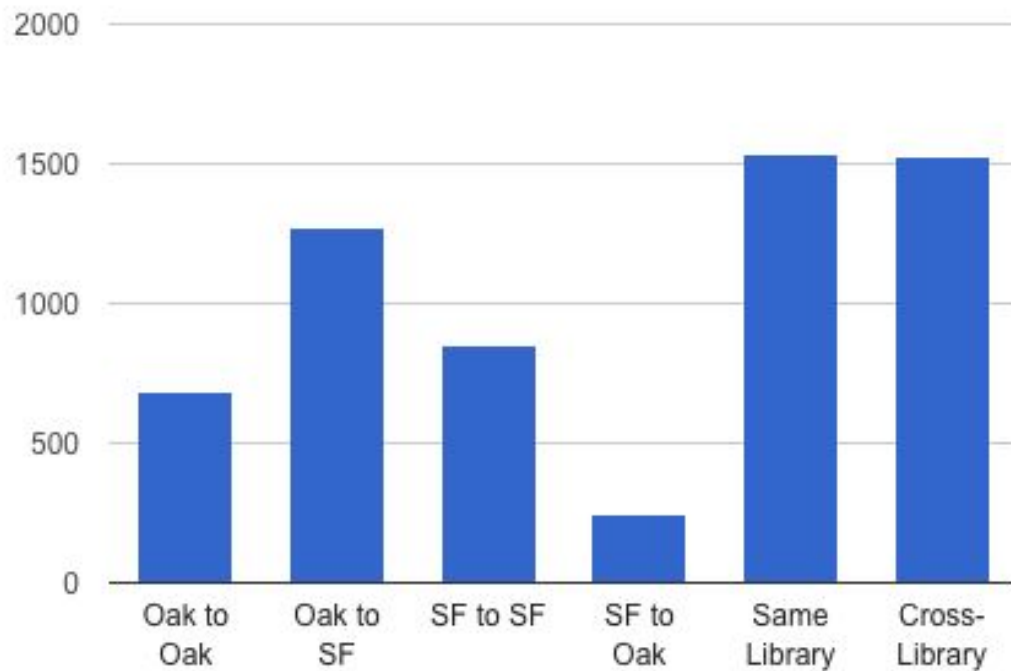

Our April upgrade fixed **7 bugs** and let me remove **123 lines of custom code** working around them.

47 support tickets closed by ByWater Solutions staff.

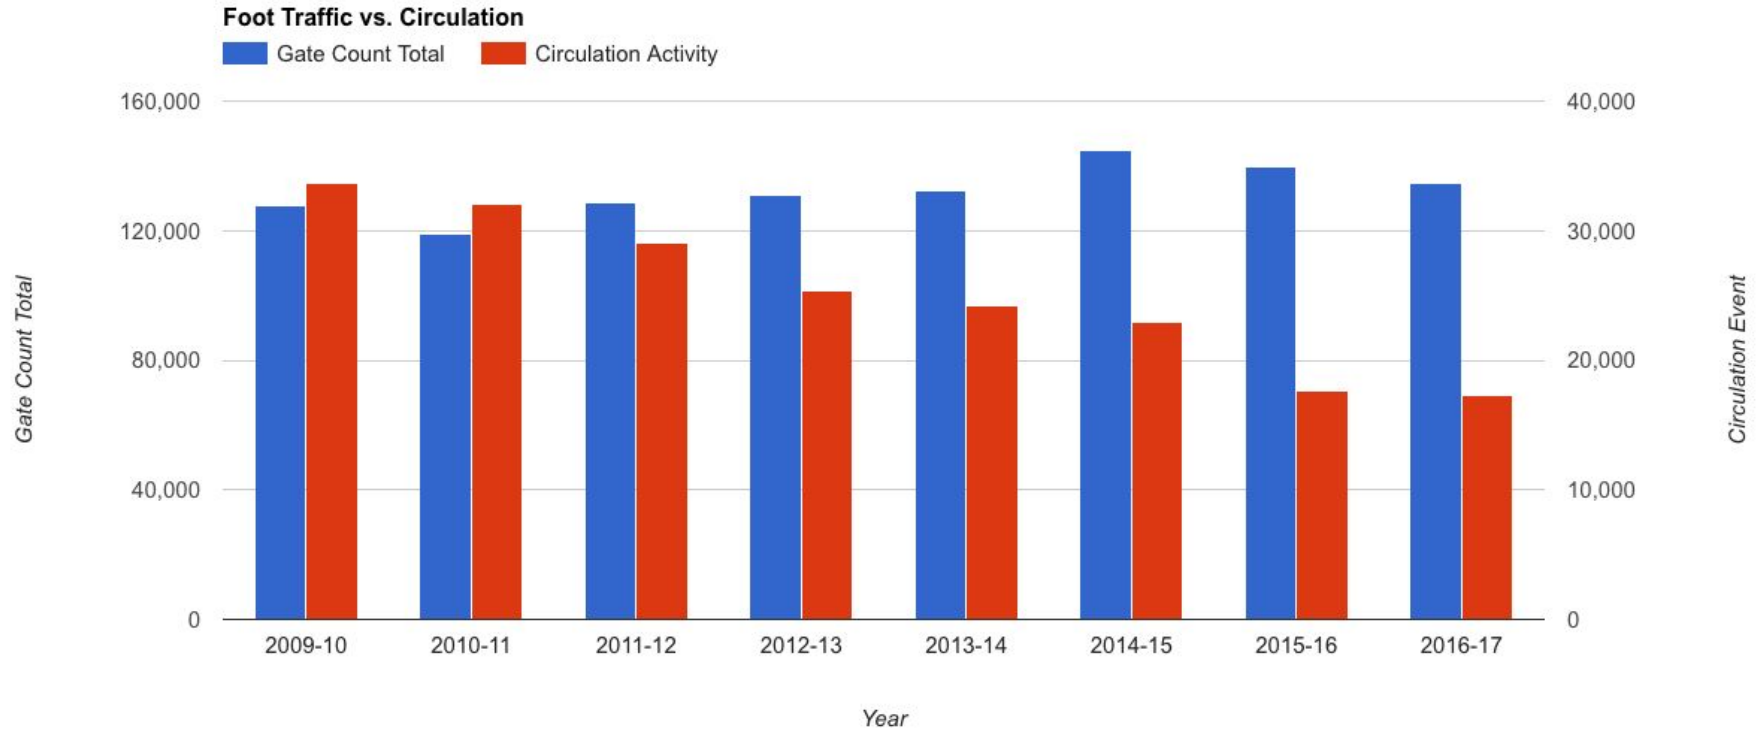

Holds

Cross-library holds (originating library vs. pickup library)

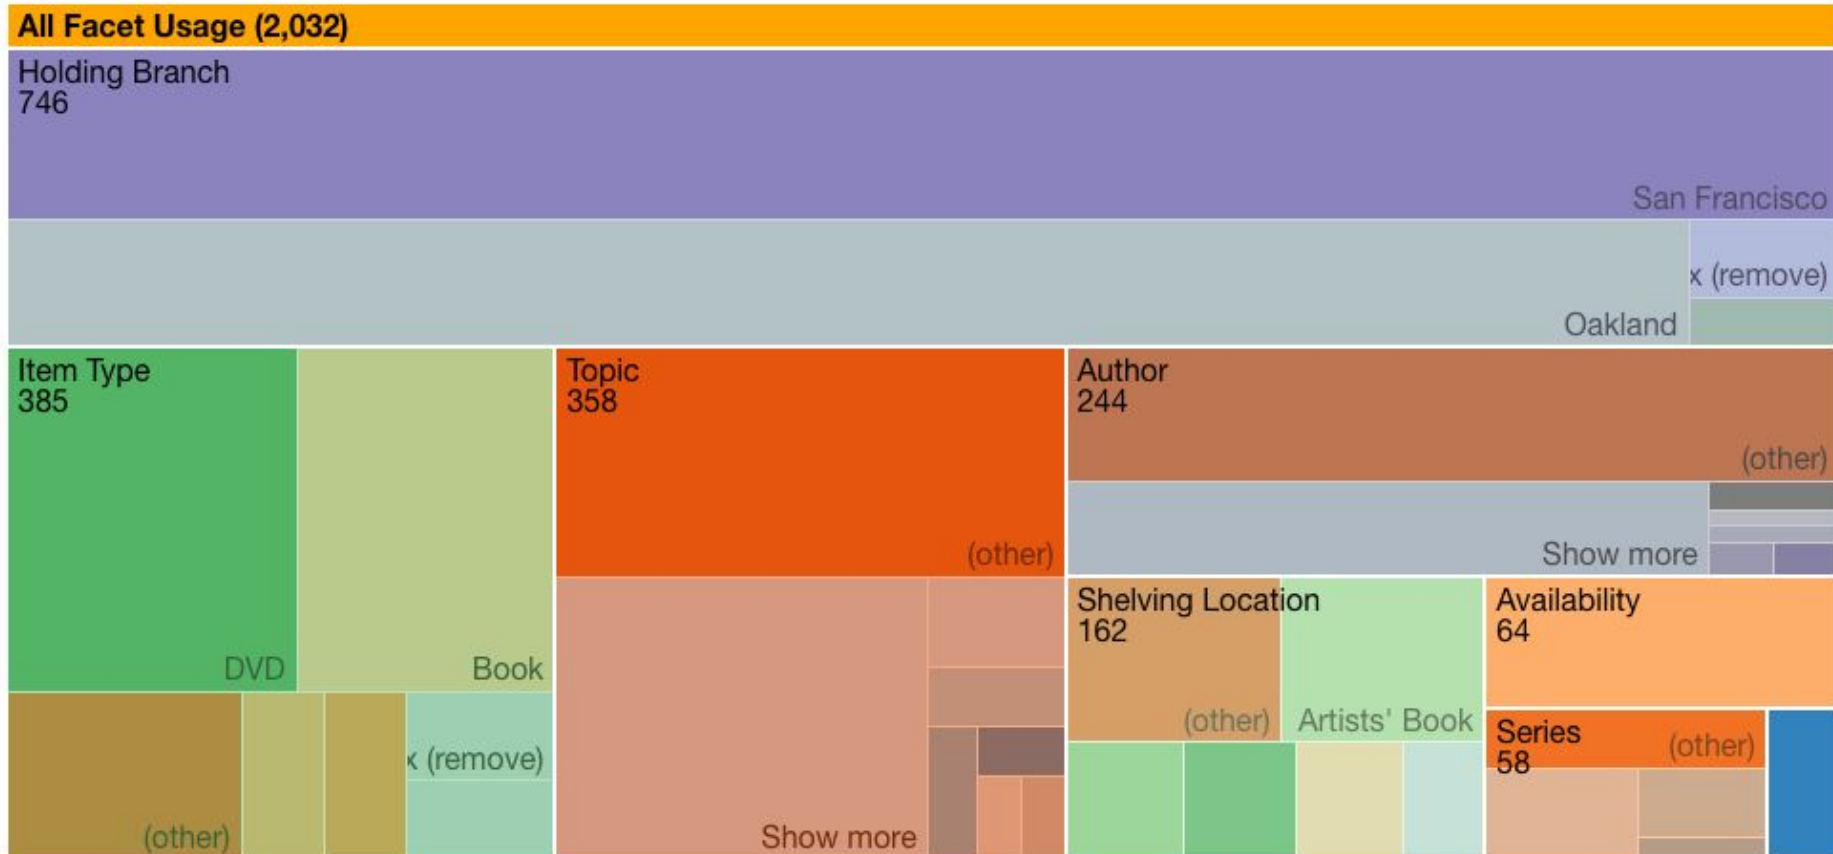

Circulation was flat for the first time in years*

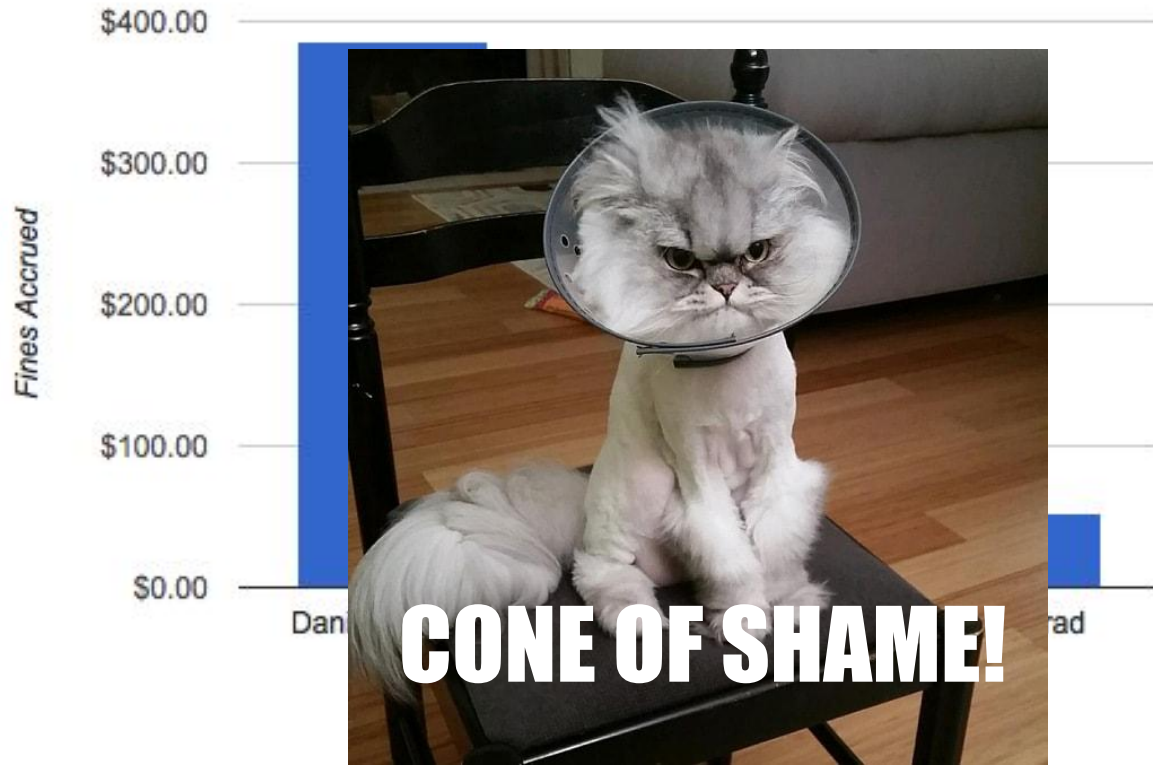

*Koha/Millennium differences may affect the data. We probably lost some May/June '16 checkouts.

Patterns:

- Misspellings
- Especially names
- Attempting to spell something multiple times
- Long citations
- Combinations of many facets

Database article downloads

Theories abound

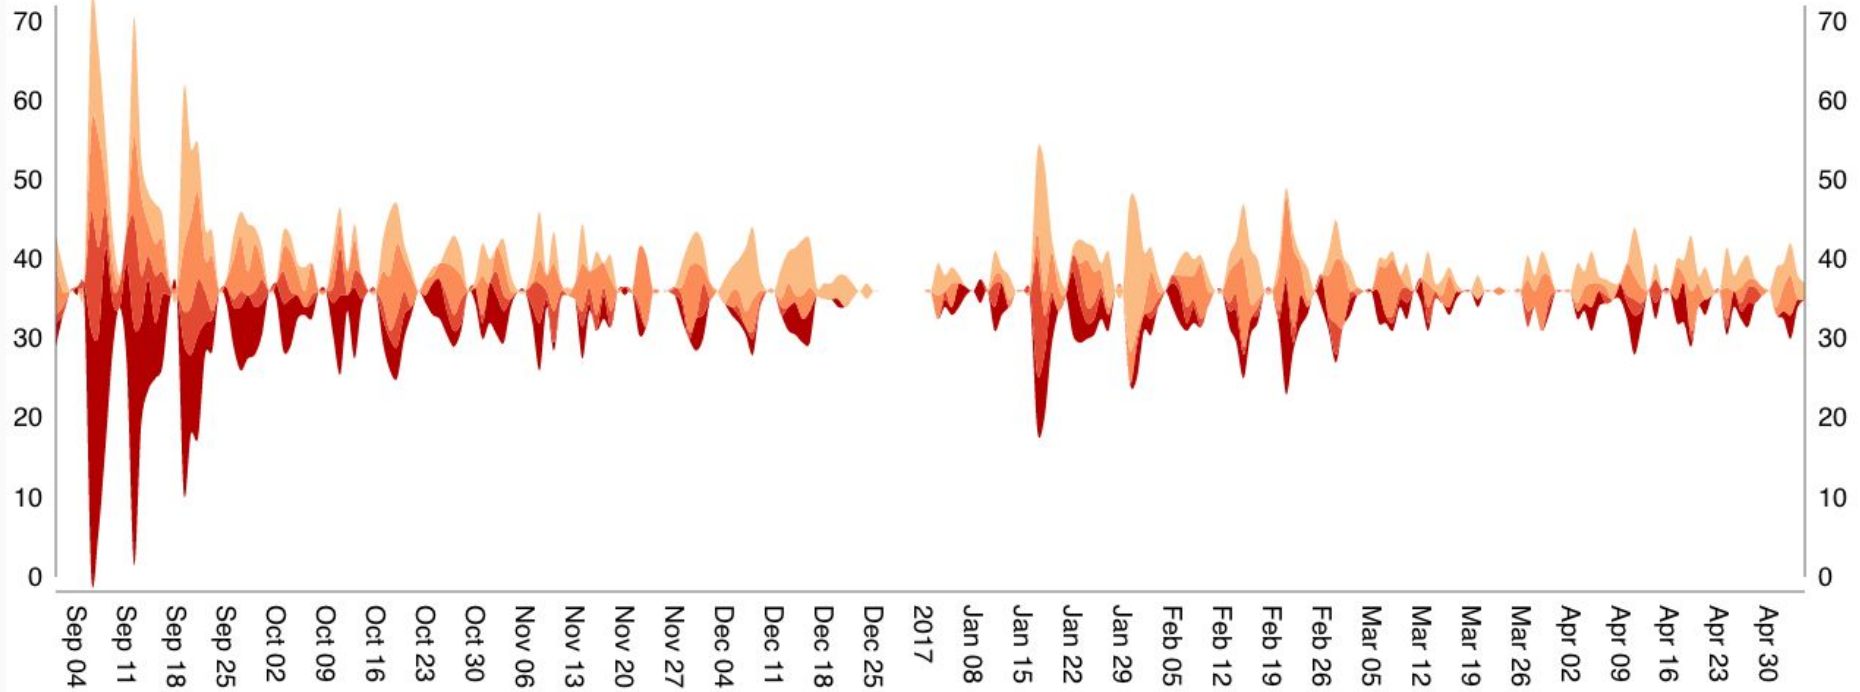

- Maybe open access & other resource use went up
- Only one semester for comparison, a full year will be more informative
- General usage trend was already slightly downward
- I'll have to research further & return to this data
