AFRICAN ART PEDAGOGY EXHIBIT

November 5, 2015 - December 11, 2015

Opening Event - November 11, 2015 4:00PM- 6:00PM

The California College of the Arts welcomes you to explore the AFRICAN ART PEDAGOGY Exhibit on view in the CCA Meyer Library on the Oakland Campus.

Curated by faculty member Leslie Townsend, Bobby White, Instructional Designer, and Lisa Conrad, Digital Scholarship Librarian, AFRICAN ART PEDAGOGY Exhibit displays *material* artifacts, and links the many types of *digital* artifacts from Townsend's African Art course in the Visual Studies Program. Images, videos, texts, student assignments, reference materials, and the syllabus are all integrated within a digital display. They used the software tool Twine, an open-source tool for telling interactive, nonlinear stories, to allow viewers to open up the course to layered perspectives--instructor, student, assessment, and reflection-- and reveal complex interactions unavailable in a traditional 2-D format.

This is the Libraries' first Digital Scholarship project and our first exhibit utilizing an iPad.
