Hi CCA Staff and Faculty,

Although many employees will continue to work remotely for a period of time, CCA is working diligently on return to campus plans with the utmost concern for the health and safety of all students, faculty and staff. As we prepare, HR is helping to gather employee input. Please note that we are sharing this survey with all employees, including those who may be remote for the fall semester. We recognize that anyone may at some point need to come to campus and we value your input.

Please click on the link [here](#) to access the survey. Your response would be appreciated by Friday July 17th.

Thank you!

Human Resources
