SCELC/OAPEN OA Ebook Pilot

Goal: track usage of open access ebooks and provide feedback on the OAPEN platform.

Announced Spring, 2021. Most of the work was completed in 2023, including three progress reports with usage data and qualitative feedback.

Marketed the ebooks in the newsletter and on Instagram.

SCELC & OAPEN Pilot Project

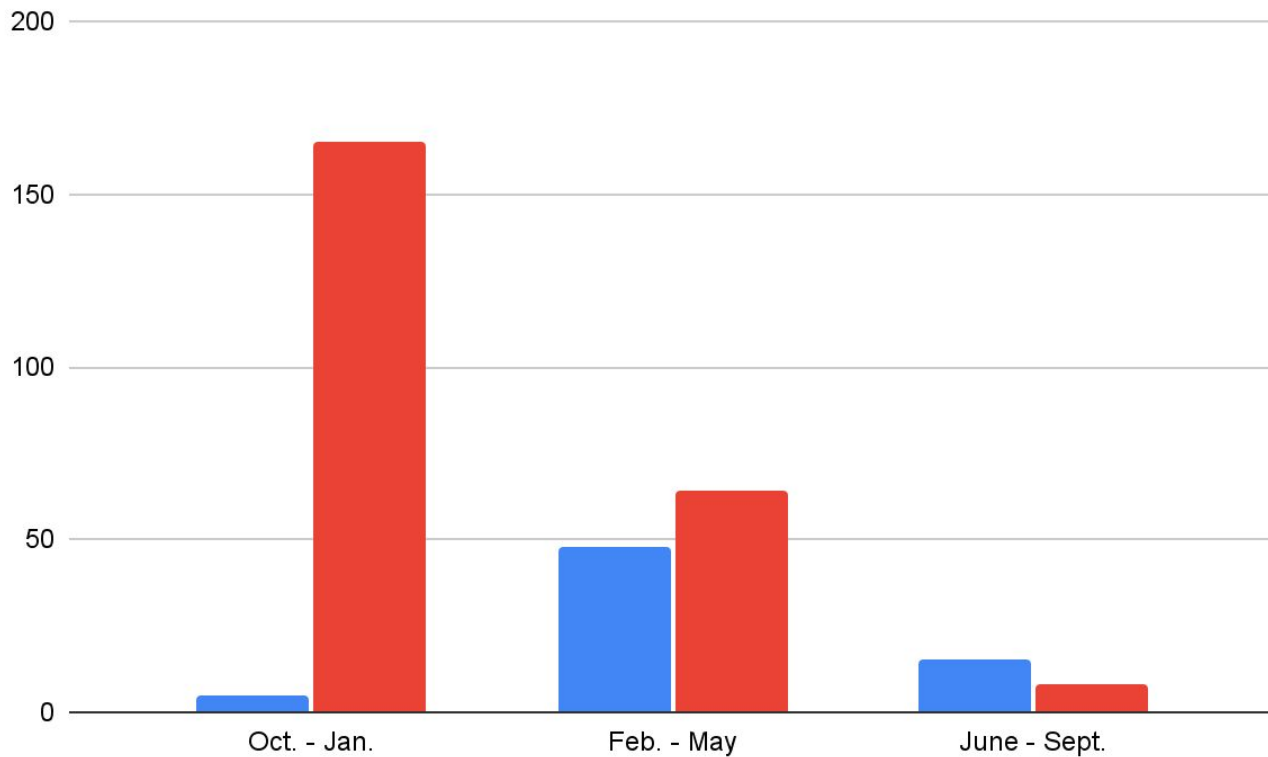

Enabling Discovery of OA EBooks with OAPEN

This pilot project is a collaborative effort between [SCELC](#) and [OAPEN](#) to amplify the usage of open access (OA) resources in [SCELC member libraries](#). The goal of the project is to jumpstart the integration of open access ebooks and provide a data driven analysis for the expansion and continual investment by SCELC. It will be accomplished through the following:

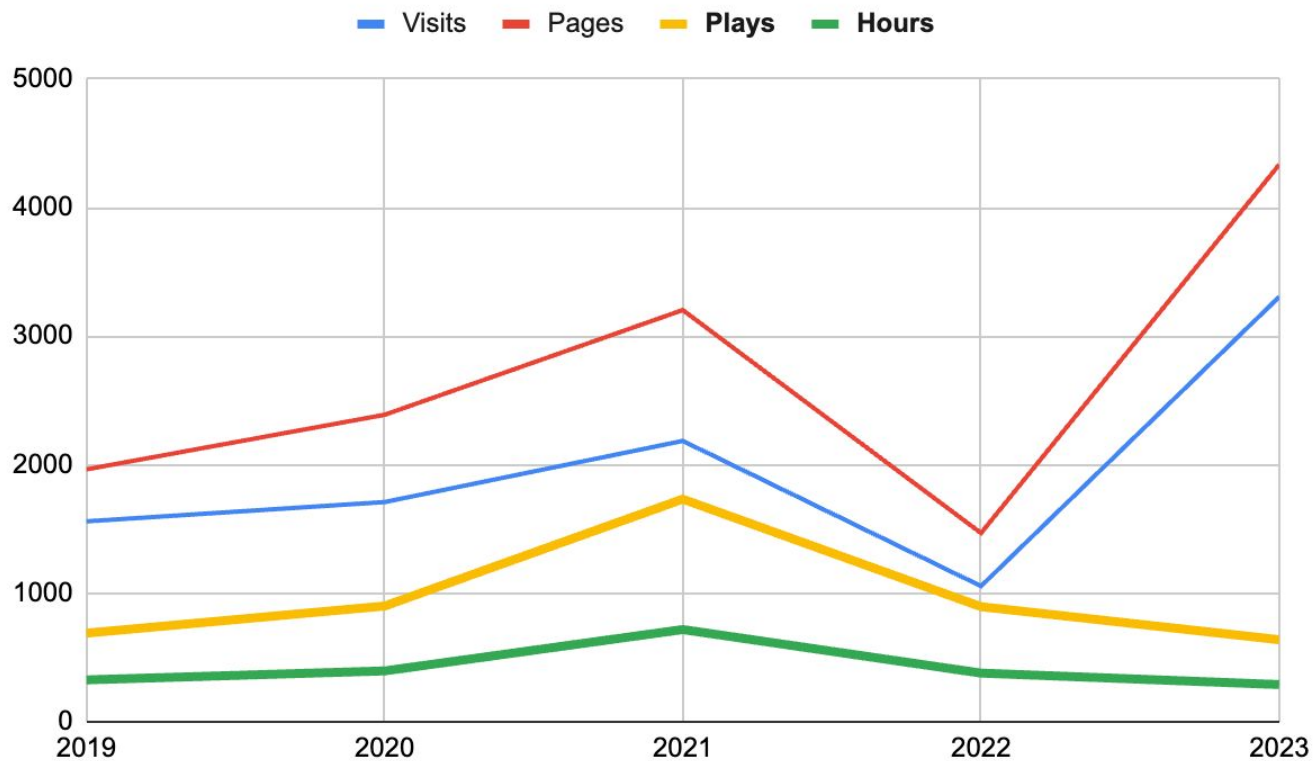

1. Customized feeds of OAPEN's Open Access books to participating SCELC libraries.
2. Analysis of the usage statistics and trends.
3. Feedback from participants.
