

THE BODENNER COLLECTION

MIX TAPE

hand woven textile made from post-consumer cassette tape, post-industrial cotton, wool, mohair, linen, silk, and rayon

THE BODENNER COLLECTION of super fine textiles is sumptuous and gleeful. Scott Bodenner, who has designed for established brands in the past, is now unlocking his workshop doors. He has struck surprising harmonies between traditional techniques and new science, between post-industrial discards and lavish finery.

RECYCLED SILK TWEED

created from shredded loom waste collected from high end Italian designer necktie mills
