Most of Mrs. Moore's working life has been spent in California, the State most prominently associated with the development and stature of crafts and craftspeople. For many years Mrs. Moore was curator of design at the Pasadena Art Museum where she has also served as president of the board of trustees. At the close of her term on the board, she became director of California Design, initiated by the County of Los Angeles and functioning through the Pasadena Art Museum to produce the well known and distinguished series of exhibitions of handcrafted and multiple production objects designed by Californians. As director of the Crafts Program of the National Endowment for the Arts, Eudorah Moore is continuing to work for such objectives as enhanced scholarship in crafts, integration of architecture and crafts, funding to encourage quality crafts exhibitions and wider variety in grants to craftspeople and their projects.
